REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose the claimed invention. Specifically, the closest prior art of record, U.S. Patent 5,797,875 (herein after Silver '875), fails to disclose a female coupling component comprising upper and lower portions wherein the diameter of the lower portion is smaller than the diameter of the upper portion. Silver '875 further fails to disclose a stopper that permits airflow between the female coupling component and the ambient atmosphere. The female coupling component of the connector device embodied in Silver '875 was provided by the applicant on 10 August 2007, and upon examination of the component of Silver it is the examiner's view that Silver '875 fails to disclose the features described above. The female coupling component of the present invention, which comprises upper and lower well portions, prevents use of the device using unmatched male coupling components, as described in the present specification on page 4, lines 17-26. Therefore, the prior art of record does not anticipate nor fairly suggest the present invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to C. Lynne Anderson whose telephone number is (571) 272-4932. The examiner can normally be reached on Monday through Friday.
